IRONMODS traveled from SoCal to San Jose to display a few of their casemods. We had IRONMAN, GDI War Factory and Ion Cannon, and the TF2 Sentry, Dispenser, and the sapper. We will be posting pics from the event in our gallery shortly.

Our friends over at DL.TV was at the event, and had a segment on the case mod. You can check it out here: [DL TV Ep 247](#)

Special thanks to Sam for mentioning IRONMODS.com!! :)
