

Gigabyte Invitational Overclocking Contest

Gigabyte extended a warm invitation to Team IRONMODS (Cpt.Planet and TiTON) to come compete in their United States Regional Qualifier at the Royal Palms Hotel in the City of Industry. The grand prize for the winner was a trip to Taipei to compete in Gigabyte's Overclocking World Championship.

Due to conflicts in schedule Cpt.Planet was not able to attend the competition. We know he would have definitely done very well in this contest. This event was awesome. The Gigabyte staff did a great job hosting the event, and taking care of all the benchers. TiTON even brought his Team Fortress 2: Sentry and Dispenser, along with IRONMAN Mark 1 to display at the event. There will be pictures posted in our Picture Gallery in the next few days.

In the mean time, you can check out all the great press coverage and YouTube Video of the events:
